MERSES JOHN FORSTER & Ca., РОЗСНОМ. Superintendent,-

gods Anchorage, known as the Foocham Dack, Deck, with the property and machinery attached,

valued together at \$130,000, and also the Tug-Steamer Woosung, valued at \$10,000. The remaining \$50,000 will be used for the purchases of stock and materials (of which a considerable quantity is on hand, and is offered at cost ment; and for the permase of an additional To those who may be J. B. Warson v. A. Rohrmon \$22, for Tug-Sleamer; in actual acc with the remaining of the space. Committee for working med. the whole to best advantage. By arrangement with MR. John Forster,

The Company will take over the property to be In Bombay by :nurchased from him, from the 1st January of the present year; from which date all posits on the business are to accrue to them, while be shall receive interest at the rate of f per cent. per annum on the amount of purchase money. notil paid up, The Company will be managed by a Board of Fire Directory, two of whom are non elected with the power to aid three more to their number. Three will retire aimually, but

are eligible for re-election. The funds of the Company will be entirely under the control of the Board. A statement of accounts will be submitted to a Meeting of the Resident Shareholders, to b held animally, when a dividend will be declared. Applications for Shares, in the annexed form. to be addressed to Messes. John Forster & Ca. Foodhow, who will act as General Agents nutil all are allotted.

An application for Shares, followed by an a lotment thereupon, will constitute the appli cant a Shareholder in the Company. The deed of settlement will be duly prepared and copies will be furnished to the Shareholders when ready.

PORM OF APPLICATION FOR SHARES.

To the Directors of the . FOOCHOW DOCK COMPANY. Shares of \$100 cack in the above Company agree to accept such Shares or any less number you may allot to and to pay the Calla thereon; and anthorize you to name on the Register of Shareplace in name on the Rep holders for the Shares alloted.

Your obedient Servant Full Name and Address 7 of the Applicate Same Freehow, 7th March, 1870.

Report on the Projected Dock Scheme FOOCHOW, 12th February, 1870. When it was lately proposed by Mr. John Verster to transfer his interest in the Dock at Pagods Anchorage to a public company, the community of foothow, taking the proposal into consideration, appointed a committee of five geatlemen, for the purpose of investigating The merits of the scheine, and of reporting to the community the result of their investigations. The Committee so appointed has had two objects in view; let, to ascertain the actual condition of the Dock ; 2nd, to consider after acareful examination of the books if the schemewere likely to prove a remnnerative onc.

As far as the first point is concerned, the com-pittee is estisfied that the Dook at Pagoda Anchorage is in excellent-order and full worth the value placed upon it. Two competent men uninterested in the scheme, have at the request of the committee, surveyed the Dock thoroughly, viz.: Captain Bisbee, Divisional Inspector of the Maritime Custoins, and Captain Shaw, one of the Surveyors established at the Anchorage whose report will be found appended, Captain-Davidson, Commander H. M. S. Hornel, banales kindly allowed the use of his name in support of the statement of the above-named gentlemen, having himself taken the trouble to make a careful survey of the property. The Committee bas therefore no besitation in endorsing the conclusion arrived at by the surveyors, and in

declaring themselves satisfied on the first point Regarding the second point, a sub-committee composed of Messra, Master and Daleymple has een denuted to examine the books, and to re port to what extent they might find it practieable to reduce the actual expenses of the Dock. Their report shows that during the two years ending 30th to Jone last, over which their examination extended, all the coals used for the steamer and, at the Dock had been bought at Foodbow. The Committee therefore may with confidence affirm that a considerable reduction might be effected under that head They would have the same opinion to give regarding the purchase of other materials necessary for the working of the Dock, which, il appears from the books, were nearly all pur chased in Hongkong and on the spot, at probable average cost of at least 15 to 20 ner cent. above the cost of direct importation, As regards ealaries, &c., of the stail, the Committe

is catisfied that the reduced scale sanctione by the Superintendent, Captain J. C. Skey, can be carried out without impairing the elliciency of the concern. The Committee is therefore of opinion, that i would not be unreasonable for the shareholders to expect a Dividend of from 15 to 18 per cent. on their investment; and as the capabilities of the Dock become better known, an even larger

return might be booked for. Should the schengs meet with sufficient support, it is proposed to form a company with a total capital of \$200,000, to be mised in 1,000 shares of \$100 each, of which \$50 to be called up at once, a further \$25 at the expiration of three months, and the remaining \$25 at the end of six months. With this capital, the actual establishment might be improved, a second and strong Tag-boat might be purchased and a balance of between \$30,000 to \$35,000 would still remain to work the Dock.

undertaking the Townge of the Part. The account shown of the working of the sleamer Woodung during the past two years, speaks for itself; and the purchase of a second Tue-boat. would, it is believed, go far to secure the mono-

Intimations. PROSPECTUS OF THE FOOCHOW DOCK be at once formed to undertake the working of BARON DE MERITENS L O. MABPEN. P. Temple: H. L. Dalrymple. H. S. HANGOCK.

Sunvey Report on the Foodhow Dock. The undersigned having been called upon by the Earon de Meritens to survey and report M. LE BARON DE MERITERS, Commissioner of upon the Foothow Dack, report as follows, We find the Caissoon in a good efficient state; argument above noticed is in very many

It is hardly necessary to call attention to the etrongly built of iron bark; sides and deck of cases resorted to, when, if the truth were performance which is to take place this even. Oregon pine; bottom and some of the side planks known, it would be discovered that the Amateurs and Mrs. Bennee.

Caiss on is perfectly water-tight and well litted persons whose acts are criticised were unlike scheme has been fully discussed by the with pumps and miness, &c. The Dock has known either to the writers of the articles apparently so leaks, is well and properly fitted the first instance submitted, and who generally with good blocks of from back wood. Engines objected to, or to anyone clie connected with Survey Report by competent authorities upon proper order. The Bock has a good Engine against a species of argument which has an the condition of the Bock and Premises. The object of the Company is to take over large and good supply of Timber. Spars, &c., appearance of plausibility, but, which is from MR. JOHN FORSTER the Dock at the Pa- and all necessaries for the requirements of the (Signed, S. L. SHAW.

THE LATE MR. ANSON BURLINGIME

Again and again is the chronicler of massing events called to record the death of men who have filled such a kirgo space in the moving paneragia of the world's progress, that their oing out from life seems like a great calamity. The world moves on just the same, although the midden extinction of a bright light a mis a thrill of sorrow all along the chords of international intercourse. But, for a moment, it seems as if the machinery of that department in which the departed publicist was engaged. must rough atil). Such a death as this, is that nonneed to have occurred at the Russian capital £19.625,000 on the 23rd of February, 1870. To busy men. filled with heroic desire to achieve, to do, or to scence the prices which the world offers, such an approprietment comes like a sal warning: It tells us how full of futilities, disappointments

when the lateful hour has struck. In the de-

cause of Burlinging there is a deeper time of

sadness, because Death has here smitten down one who was in the midst of his years, hopers, labors and usoful services. The le-son of mertalily is neldom in the forcibly presented. Ansen Builingame was born at New Berlin, Chenango county, New York, in November. 1822; consequently he was but a little more than forty seven years of age at the time of his death. His early life was spent on the frontier. as he was attucked to a Countriesion appointed during the administration of President Van Buren, to conclude treaties on the part of the United States with several Ludian tribes of the £70,500,000 North-western Torritories Later, he began a course of sindy at the Branch University of 277,000,000 Michigan, but his family removing to Masanchusetta, he citered Harvard College, where his education was completed. He commenced the practice of law in Hoston, and was elected to the Stare Senate from Sulfalk county in 1852; and in 1853, he was a member of the State Convention of Massachusetts. In 1855 and served successively in the Thirty-fourth Thirty-lifeh and Thirty-sixth Congresses. While in the House of Representatives he of the House Committee of Foreign Affairs His ardent temperament and zealous defence of the free principles which he esponsed frequently involved him in complications with the crafty but he always acquitted bimself in such a manner as to command the respect of all true men. In 1852 to was appointed by President Lincoln as Minister to Austria. As a Repus H. M. Indian stoam troopedin Malabar [Pleff] sentative in Congress, he had previously expressed himself with great feedom on the famous Kostza caso and upon Austrian tyrainy generally, and the Austrian Government baving Disracli accepted the second reading of the caused an informal notice that Burlingana would not be received at the Court of Vicana, his commission was revoked: James Lothrop Motley was sent to Vicous and Burlingame was sent to represent the United States as Pakin, During the rebellion, Burlingame was of great sprvice to his country in various ways, though he was far from the sent of our difficulties. His administration of affairs entrusted to bim in China was wise, bumane, cantious and suceccaful, The world was astonished when it

whose death we now record. He had concluded would have visited the capitals of Austria, Italy, spleudid career in glosed, his labors are caded, Burlingame was a man of bread and ample physique, and warm and sympathetic disposicountry, his mee, humanity and civilization, tion of the immortal Borke, " What shadows

notes they make at their coming is as nothing beside the acolemetions with which Obrietenbe committed during the month of March, of hat day, with the stern, cold, irritable man be committed during the month of March, of a latar period. How this change came about of which no trace can be found by the police, and yet, be it observed, they are of such a nature that it impossible to believe, Stanton in 1842, charge gives up the such a nature that it impossible to believe, such a nature that no nature that nature that nature that no nature that into the hands of investigators; but it has already proved itself second in importance only to the telescope and the microscope, in extending our acquaintance with the laws of the liniverse. Indeed, we may say that any one of these three instruments alone, in the precent state of science, would afford not a tithe of the resources which the combined battery of the three, assisting one another; places in the band of aggressive intellects, laying siege to that "workshop of nature" which Goothe declared

to be " forever inaccessible."

will be found in the report of the Commission on the Popung Riots of 1867, at which of the change his nature was transformed for the witheases, speaking of the Ghee of the Gh one of the witnesses, speaking of the Ghez Many other improvements which might be offected by an one company would no doubt, offected by an one of the witnesses, speaking of the Ghez me sharpholders; but such details the company to the propose freely and not below the judge should be carried out, by an one of the would be the extrement in Ghina — one of the dulies and profession, to forget the terrible me sharpholders which he doubt in the policies in the second transmitted of the future of t profiles from that date going to the creation the company, and he to receive interest at the rate of the company, and he to receive interest at the rate of the purchase more year animum from that date until the purchase more year animum from that date until the purchase more year animum from that date until the purchase more year animum from that date until the purchase more year animum from that date until the purchase more year animum from that date until the purchase more year animum from that date until the purchase more year animum from that date until the purchase more year animum from that date until the purchase more year animum from that date until the purchase more year animum from that date until the purchase more year animum from that date until the purchase more year animum from that date until the purchase more year animum from that date until the purchase more year animum from that date until the purchase more year animum from that date until the purchase more year animum from that date until the purchase more year animum from that date until the purchase more year animum from that date until the purchase more year and the purchase more year animum from that date until the purchase more year animum from that date until the purchase more year animum from that date until the purchase more year animum from that date until the purchase more year animum from that date until the solid secrets. The plan is a number of the fixed more interested. Years after one in the land i the benefit of the new company. THE LATE MR. ANSON BURLINGAME. iney, which Again and again is the chronicler of passing yents called to record the death of men who have filled such a large space in the moving panoragia of the world's progress, that their going out from life seems like a great calamity. nited upon The world moves on just the same, although be the anditen extinction of a bright light sonds a theilt of sorrow all along the chords of internathe matter tional intercourse. But, for a moment, it flernoon.)
or the week must sand still. Fuch a death as this, is that regules:- of Anson Burlingame, whose demise is an-\$11,875,000 | nonneed to have occurred at the Bussian capital. £19,625,000 an the 23rd of February, 1870. To busy men, £20,062 90) filled with heroic desire to achieve, to do, or to s core the prizes which the world offers, such an announcement gomes like a sad warning. It tells us how full of futilities, disappointments and polinished plans life is; and it reminds all men that rank, station, usefulness and incomideted schemes for the world's botterment, or for the selfish sake of one's own ambitions, are all alike ineffectual excuses for denial or delay when the fateful book has struck. In the decease of Burlingame there is a deeper tone of sadness, because Death has here sufficen down me who was in the midst of his years, honors, labora and useful services. The le-son of mortality is selden in he foreibly presented. Anson Budingame was born at New Berlin, Chenango county, New York, in November, 1822; consequently he was but a little more than forty seven years of age at the time of his death. His carly life was spent on the frontier, as he was attached to a Commission appointed during the administration of President Van linger, to conclude treatles in the part of the United States with several Indian tribes of the £70,500,000 North-western Territories. Later, he began a course of sindy at the Branch University of £77.000,000 Michigan, but his family removing to Most sachusetts, be entered Harvard College, where di. (Noon.) his education was completed. He commended the practice of law in Buston, and was elected to the State Senate from Suffolk county in 1952; and in 1853, he was a member of the State Convention of Massachusetts. In 1855 be was elected Representative to Congress, and served successively in the Thirty-fourth. Phicty-fifth and Thirty-sixth Congresses. While in the House of Representatives he distinguished himself as an able debater, a aposition to fearless champion of human rights, and a close observer of Coreign politics. During his Congre sjonal career he was always a provident members of the House Committee of Foreign Affairs, His ardent temperament and zerlous defence of the free principles which he exponsed, frequently involved him in complications with the brafty leaders of the pro slavery party in Congress. but he always acquirted bluself in such a en requested manuer as to command the respect of all true men. In 1853 he was appointed by President Lincoln as Minister to Austria. As a Repres blobar [vielt] scatheire in Congress, he had previously expressed himself with great freedom on the fumous Kostża care and upon Austrian tyrauny generally, and the Austrian Government having caused an informal notice that Burlingame would not be received at the Court of Vienna, his commission was revoked: Jumes Lothrop Marley was sent to Vienna and Burlinganie was sent to represent the United States at Pekin. tried by 443 Daring the rebellion, Hurlingame was of great service to his country in various, ways, though he was far from the sout of pur difficulties. His administration of affairs entrusted to him in China was wise, humple, califices and successful. The world was ustopished when it Public Works Anson Burlingame was appointed Envoy g reorganised Extendedinary from the Chinese Imperial Go. vergment to the United States and Europe. He accepted the missipu in what he considered the interests of civilization and bragenity. On Mr. Cardwell the Stat of March, 1868, he arrived in San ation asked by Francisco with his native associates in the Emtended to give longy and a large suite. His career since that doueleies, the time has been matched with the same onger lance with the the notions of a planet in the sky. Whitever menting to the may be and of the natecedests of his mission, or of the motives which prompted its inception on of a judicial it is admitted on all sides that few events of godern times have attracted as general attenresented to the tion and have clicited so wide disconsion, as oy, and to the the appointment and doings of this Embassy. No American has ever nobieved such a brilliant no Q C .) of the position, nonnecoupled so large a space in the attention of European courts, as the man whose death we now record. He had coroladed treatics between Ching, and Great Britain, France, Prussis, Sweden, Norway, Denmark, and Russia, and If his life and been spaind, he would have visited the capitals of Austria, Italy, Hibernia was spain and Portugul, on a like orwand. But his spleadid career is closed, his labors are ended; to Enez will be North his generous heart lies stilled for ever. Burlingame was a man of broad and ample physique, and warm and sympathetic disposition; and a noble enthusiasia prevaded his d that he will patters, Possessing extraordinary, social powers, one, on Thurs his personal friendships were strong and Preservation | numerous; he honestly latered for what he considered to he the heat interests of his u proclaimed country, his race, bumaffity and civilization. and pointable With bits partriotless was a phesion; but his s found in the inherent love of hunah freedom led him to er. bromber views of the world's progress and conveise of special dirlon, than those which most statesmen aght; and the entertain. His life and brilliant career show to victims at what is possible to be achieved by the handble provided Sicili- citizen and untitled youth of the Republic and his almost tragic death is a striking lesson of the truth contained in the passionate exclusiolion of the immobile Bulke, " What shadows we are, what shadows we pursue !" sine nee of the reference to SOIENTIFIC ACHIÊVÊMENTS OF LAST omulations, it le prophed to From the New York "Evening Post," The year which has just ended will perhaps be remembered longert as that in which the first railroad was completed across this continent, and that in which the Street Canal extended the Lediterranean Sea eastward to Lidia; chingges Covernment which, together with the new line of Paolito Mail steamships from the Golden Gate to China. have practically shortened by one half the average time required for a journey around the world. But there are other proofs of real proat to Tunin, at grain in the world, which may one day by regarded as not inferior, to those, although the one they make at their coming is as nothing caide the acclamations with which Obristengh arrived yes- dom has greeted the new pathways open to trade. These are found in the substantial

additions which bave been smale to human knowledge in the despain of soldness the advances by which the mind of man loss pressed forward into what have always been taknown realms. O'rief among these are doubtless the achieveprents of the apectroscope, especially in the province of estronomical option. It is but a few rears since this justrument of res grobs came nto the bands of investigators; but it has already proved itself accord in importance only to the telescope and the microscope, in extending our acquaintance with the laws of the universe. Indeed, we may say that any one of hese three lastraments alone, in the present state of science, would afford not a lithe of the resources which the combined battery of the bree, assisting one another, places in the band, of aggressive intellects, laying sleep to that workshop of mature" which Goothe declared in be "forever inaccossible." There are some results of spectroscop in inorgain, rived vesterday, with dates from San Francisco pass beyond all the boldest auticipations even to the lat ult. The general items of news were of its inventors. Perhaps the most brilliant given on the arrival of the Japan steamer, The of them is the method of determining the sindoos, following from the Alta California is of special are in a right line to or from our sun. The spectrum formed by a prism, dispersing the Steamers and more gromers'. If all the rays of light, is the result of the law that these projects now on the topis should be carried out, rays are refracted more or less, according to akea, too, the guns of arriving and departing steamers; the length of the "waves" of which they conof quest will keep up an almost consume rever sist. Now, if a stir is moving away from as ret adopt beration in our harbor It is already known for toward as in space, a mathematician can

For it is always the Vessels on the Berth most mysterious facts, the most miaccountable observations, that prepare the way for the STEAM TO YOKOHAMA. greatest advances in knowledge. An exception THE P. & O. S. N. Co.'s steamship to any law already known is sure to prove only an instance of some greater law waiting to disclose itself. will leave for the above place shortly after the SAN FRANCISCO Indeed, the activity with new facis concerning the solar system which have been collected arrival of the next Enclish Mail. during the last year is itself one of the wonders & O. S. N. Co's Office. of seience, It is but a short time since the astro-Hongkong, 5th April, 1870. nomy of our own system was regarded as complete in outline, and only to be filled up by STEAM TO SHANGHAL painful and abstract reservelies perfecting our / THE P. & O. S. N. Co.'s steamship knowledge of the governt bodies in detail; which could have no interest for the general reader. But now the whole intelligent world will leave for the above place about 24 had is filled with the renown of inquiries into the after the arrival of the next English Mail, structure of the sun, the past history of its W MACAULAY, Superintendent. system, the storms in its atmosphere, the P. & O. S. N. Co.'s Office. nature of its nebulous appendage, and even into Hongkong, 5th April, 1870. the exact figures of its distance from the earth FOR SWATOW, AMOY, AND FOOUHOY - question, however, on which no important addition is expected to what is now known, until the next transit of Venus, December Sth. The other sciences have been no less active of tate, although some of them baye attained only results of less general interest. In chemistry there has been progress made in improving the nomenclature, and in the methods of exact analysis. Many of its now practical applications, too, have been most promising ; none more so than the improvenients in the manufacture of irou and steel from the ore, and in obtaining illuminating gas. In zoology and palmentology there has been more zerl shown in Germany the above port. than here; and, although there bove lisen no new works forming an ora in these sciences, yet aderain popular understanding and love of them has certainly been brought shout in that country, where the people gether by thousands The whonever such a man no Virghow or Hacoked or Yogt promises a scientific lecture on questions which but a few years ago, were tegerded as Rathgone, Master, will meet with quick the exclusive concern of a low specially learned patch for the above port. Theologe of the vest has been marked ! ninking public the results of an expedition, see out by the British Government, to explore, b dvedging, the depths of the sea. This attempt line been for more snapestful than its projectors dared to hope; and has resulted ; proving the existence of life in a great variety of forms at depths which were supposed to be domanatrably an atter waste. Right, at least, above port. of the forms found in great depths are species of which were known as terthery fessile; hat were supposed to have been extinct; for thousands of ages. We have recently had occasion to comment on the orngial lumertance of these results, in their hearing upon many unsettled questions of geology and zoology; but they are too Urriz, Master, will have immediate disputed as recent to allow may judgment to liq formed as above yet of the influence they will ultimately have in modifying the doctrines of "geological time," or those concerning the permanence of One lesson will be learned from the triumphset | THE Ship mind to which we have referred, as from other like them which have been achieved in the same time; that no problem which and he distinctly will have disputed for the above port. ant before human science is to be despuised of There is not within the roach of imagination an inquiry which conderns the laws of the visible world, that seems more hopoless to day than some of those so recently and so satisfactorlly solved. A COLD-Bream Guard. -An umbrella. The budy of Rossini was so hadly embalmed that it can no longer be recognized People who lisp do not believe in vounte Every miss is a myth to them, Brigham Young is indeed a pillar of Salt Luke. His idea of a woman is -lots. Nor so Dusty .- Professor Tyndall's dust is a ken in impalpably. Tea-dust, on the contrary, The Saco (My.) Independent says a tin box similar to a common blacking box, illied with powder and percession caps, and fustened together with a lead band, was found the other day in a chiego of coal which was sont to a firm n that city. Had it found its way to a stave It would undoubtedly have caused a lively com-OOMMOROIAL INTELLIGINGS. HONGKONG, TUESDAY EVENING. the drug market has kept quiet throughout the day. The following are the roling prices i -New Patrick \$515 to \$5101, could and on thise, little doing; New Bonares, \$490 to \$4914, no minal; Old Patus, \$5374, nominal; Old Banares, \$525, nominal. In Raw Cotton, the following sales have been made:-59 bales Calcutta Cotton at \$21.25 per picul, 172 balge at \$21.50, 30 bales at \$21.25, 100 bales at \$21 per plout; total 381 balds. Business in Shares maintalne its activity. The following salds are noted :- Old Bank Shares, 25 pt 86 premium; Stemmboat, 117 at / 34 premium cueh, and 37 to 374 premium for the end of June; Houghong Fire, 1 at \$195 premum cash, and 10 at \$190 for one month; Victoria Fire, 5 at \$20 premium; and China and Japan Marine, 10 at The 10 premium.

"I ampose," and Paul, "my interest in her at first aruse from the difference between her and the rest; she was a phenomenon." Her real pame was Francoisa TAIRST-CLASS Granite GODOWNS, at Tellier-Eulalid was her fancy stage name. I She was eighteen. Her father was dend; ber city. Apply to mother had remarried, her second himband having been till within a year a joiner; but meeting with an accident, the stepfather had become imbecile, and was the inpute of a suburhan muleon de santé. Her mother was a very sickly but plone Probestant woman, had by [her second husband had a family of three small girls. Since her husband's misfortunes and Wellington Street, at present occubied by she had hardly been able to work at all; what Mesers. A. Boxen & Co. Apply to she did was to copy documents for lawyers and at libraries; for she had had a good education, and this has always been a regular occupation for many Praceh people of the lower lourgeois class. Madame Reynard, whose fither had been poor, had learned it in her younger Ancien & Co., situated at Spring Gurdens, days, and since taught Francoice to write "a said consisting of a Large Three storied Daelanyer-like hand." It appears that a nephew line liouse containing 22 Rooms, with outof the unfortunate stepfather was acting houses and Stables attached; two large dry and in stenic pieces at the Obatelet, and siry Go lowns, capable of holding 10,000 picula was an enthusiast in his art. He, observe, with Offices and Private rooms over the serving the advantage which young francoise same. The whole beving a freetage on the possessed -her beauty, grade of movement, Praya of 210 feet, with see of a private wharf, and freshness-proposed that she should and a fine view of the harbor, take lessons for the hallet. This shocked the . The houses have recently been pointed and mother, who refused her consent; but the heroic put in thorough repair. little girl, though shuddering at the prospect, was so carnest in favour of the plan, that she at last won Madama Raynard's co sent. The girl saw the difficulties her mother had in providing means for her subsistence and for the support of the unfortunate invalid at the asylum, and was ambitious only to earn enough I MIE HOUSE and OFFICES, No. 4, Gough to aid in supporting them. Her cousin was . . Birect, lately occupied by Mesers, A. Wilable to be of great assistance; he engaged a KINSON & Co. Apply to mister at less than half-price, to be paid from the future carnings of Francoise; and when she herame proficient, which also did vary rapidly (owing to her zeal and natural quickness), her procured her a good situation at one of the smaller theatrees, where the at first, of enarge, appeared only on corps. She rose quickly, had the satisfaction of earrying home a goodly number of frames each week, and of seeing both her mother and her poor imbecile stepfather

been long deprived. The occasion of which Paul

was the first in which she had been called on to

apport as a prominent figure in the scene, and to

dress with that voluptuous abandon which is

perchiptory on the Paris stage; and that ex-

plains her distress. But her excellent behi-

vious siid not cease with this emotion and

sacrifice. When she came to the billet,

great repidity at one of the righetty deal tables in the green room. She was doing her mother's

copy-work. And more. Immediately after

rehearsal, which lasted till or after twelve, she

burried being and continue I her capying, work-

the at it three or four hours; then she went to

and treated the imbecile father to ber modest parchairs Returning home she took a slight. dinner, washed up the dishes, and was off again, buying the next day's provisions. At air she froe believer, who got the packages on to the after midnight. When the weary spectacle at tricks as smartly as it could be done, possing last came to its grand sulphur and agrid scene. Should be THE FIRST CONSIDERATION IN out the sturing gazers of the audience, and She rose promptly at six in the morning, made once to writing again, - The Bull-t-pirls of Pa- assurers :-
